

DeltaMath Configuration Guide, Canvas (Site License)

Note: The steps below must be completed by a Canvas admin for your school or district.

1. Log in to your Canvas administrator account and select the “Admin” view from the left navigation bar.

2. Click “Settings” in the left navigation bar.

3. Select the “Apps” tab.

4. Click “View App Configurations.”

5. Click “+ App” to add a new app.

6. You will need to configure the application in Canvas using the credentials from the DeltaMath *primary administrator's account*.

To find these credentials, the DeltaMath primary administrator will need to log in to their account. If the admin portal does not automatically open, navigate to TOOLS → ADMIN PORTAL.

7. Click “Integrations” in the bottom left corner of the screen.

8. Click “Learn How to Install” on the Canvas card.

Canvas 1.1

8. Make sure “Canvas 1.1” is selected.

9. The “LTI Integration Credentials” will list the key and secret needed to set up the integration.

Note: As a reminder, only the *primary administrator's account* will reveal the key and secret.

10. Back in Canvas, complete the form with the following information, then click “Submit.”

Configuration Type: By URL ← *many people miss this*
Name: DeltaMath
Consumer Key: [enter key from primary admin’s account]
Shared Secret: [enter secret from primary admin’s account]
Config URL:
<https://www.deltamath.com/s3/canvas-configuration.xml>

9. After setting up the integration, teachers invited to the site license will now have access to DeltaMath as an SSO launch or as an LTI external launch within their Canvas courses.

10. [Here](#) is a video to learn how to use the Canvas integration.

The screenshot shows a modal window titled "Add App" with a close button (x) in the top right corner. The form contains the following elements:
